

WE WILL BE SECOND.

What the Geological Survey of This State Shows

AS TO PRODUCTION OF COAL

In West Virginia in 1900 - Largest Ratio of Increase in the Fairmont or Upper Monongahela District. Shipments Outside of State Fifteen-Seventeenth of Total Production. In Fairmont Region Production Five Times that of Ten Years Ago. West Virginia Central Progress. Some Wonderful Developments in State at Large.

The following summary of the United States Geological Survey is from the American Manufacturer of last week: The report of the Geological Survey for 1898 shows that West Virginia maintained the advantage secured over Ohio in 1896, and still ranks third among the coal producing states. The output for the entire country in 1898 amounted to 219,974,667 short tons, worth at the mines \$228,000,850. West Virginia's portion was 16,700,999 short tons, with a value at the mines of \$10,131,264. The young state exceeded Ohio's production by more than 2,000,000 tons, and Ohio's output in 1898 was 3,319,925 tons more than in 1897. West Virginia's production of coal began in 1878 with 1,120,000 tons, and the report for 1898 shows, for the twenty years, an average annual increase of 750,000 tons. The increase of nearly 2,500,000 tons in 1898 and a decrease of approximately 1,500,000 tons in the production of Illinois puts West Virginia within 1,900,000 tons, or about 10 per cent of that state, and if the ratios of increase in the two states be taken as a guide for the future, Illinois will have dropped to third place at the close of the century—December 31, 1900.

Compared Conditions.

The report continues: "Comparing the production of 1898 with that of previous years, and studying the wonderful development of the coal producing regions, it will be of interest to consider the records of some of the important fields. Of these there are four—the Fairmont or Upper Monongahela and the Elk Garden or Upper Potomac, in the northern portion of the state; and the Pocahontas or Flat Top and the New and Kanawha river fields, in the southern portion. The most important of these four regions is the New and Kanawha river fields, embracing Fayette and Kanawha counties. In 1888 the output from the New and Kanawha river field was 2,290,563 short tons. Two years later it had increased to 2,850,530 tons. In five years more it had increased over 40 per cent to 4,099,118 tons, while in 1898 it amounted to 5,047,272 tons, an increase of nearly 50 per cent in the last five years. "The Pocahontas or Flat Top field embraces McDowell and Mercer counties, in West Virginia, and Taxewell county, Va. Probably more than half the product of Taxewell county, though credited to Virginia, is taken from the West Virginia side of the line, but as the opening is in Virginia and no accurate separation can be made, the entire product is given to Virginia. The mines of McDowell county did not begin shipping until 1889. In 1891 it produced more than either of the others, and since 1893 has produced more each year than the other two together. In 1888 Mercer and Taxewell counties produced 1,710,781 short tons of coal. In 1893 the product of the district was 2,815,280 tons, and in 1898 it was 5,521,100 tons.

Fairmont Field.

"The Fairmont or Upper Monongahela region, embracing Harrison and Marion counties, has shown the largest ratio of increase in the last ten years of all the coal-producing regions of West Virginia, Marion county taking the lead. In 1888 this district produced less than 500,000 tons. Five years later it produced over 1,250,000 tons, and this was more than doubled in the next five years, the product in 1898 amounting to 3,825,284 short tons.

"The Upper Potomac region, which is the southern extension of the Cumberland field of Maryland, had a product in 1888 of 515,875 short tons, of which 90 per cent was from Mineral county. Five years later the product was 1,129,587 tons, of which Mineral county produced somewhat less than 60 per cent, while in 1898 the product increased to 1,831,662 short tons, of which Mineral county produced less than 40 per cent and Tucker county produced over 60 per cent.

"The enterprise of the four railroads hauling the product to market, the Baltimore & Ohio, the West Virginia Central and Pittsburgh, the Chesapeake & Ohio, and the Norfolk & Western, is brought into sharp contrast with the manufacturing enterprise of the people of the state, for with the exception of a comparatively small amount used at the iron works in and around Wheeling, and at the salt works at Mason county, together with the ordinary domestic consumption and that of the transportation interests, practically all of West Virginia's coal

Mrs. Morris' Letter to EVERY WIFE AND MOTHER.

[LETTER TO MRS. PINKHAM NO. 14,363] "I have taken eight bottles of Lydia E. Pinkham's Vegetable Compound with gratifying results. I had been married four years and had two children. I was all run down, had falling of womb with all its distressing symptoms. I had doctored with a good physician, but I derived very little good from his treatment. After taking a few bottles of your medicine, I was able to do my work and nurse my seven-months-old babe. I recommend your medicine to every wife and mother. Had I time, I could write much more in its praise. I bid you God's speed in your good work."—MRS. L. A. MORRIS, WELAKA, PUTNAM CO., FLA.

"DEAR MRS. PINKHAM—When I commenced the use of your remedies I was very bad off. Every two weeks I was troubled with flowings, spells which made me very weak. I had two of the best doctors, but they did not seem to help me. "They said my trouble was caused from weakness and was nothing to worry about. I felt tired all the time; had no ambition. I was growing worse all the time until I began the use of Lydia E. Pinkham's Vegetable Compound. I am now able to help about the house, and am much improved in health."—MRS. A. WALKER, CALLICOON DEPOT, N. Y.

is shipped out of the state. Of the 15,701,000 tons produced in West Virginia in 1898, probably 15,000,000 tons were consumed outside its borders."

Otis' Mortality Report.

WASHINGTON, Sept. 11.—A cablegram from General Otis to the war department announces the death of Captain Charles L. Collins, Company I, Twenty-third Infantry. He died at Cebu on the 7th inst. of appendicitis. General Otis also cables the following deaths:

Chronic dysentery, September 2, Henry Buegon, H. Ninth Infantry; Willis Creelman, B. First Tennessee, acute dysentery; First Sergeant Joseph Hogan, M. Fourth Infantry, gunshot wound, accidental; August 24, Daniel Edwards, E. Eighteenth Infantry; September 6, Thomas Gulman, K. Twelfth Infantry; Sergeant Edward H. Ramano, I. Fourth Infantry, typhoid fever; July 10, Henry Uppendahl, K. First South Dakota; September 8, John Healy, K. Third Infantry, drowned in arm of Manila bay; August 29, Raymond D. Louth, M. Sixth Infantry, chronic diarrhoea; September 5, Owen Dunn, E. Fourth Infantry; September 6, James Hogan, F. Twenty-third Infantry, peritonitis; John M. McCall, B. Twenty-second Infantry, pulmonary phthisis; Michael McGrath, M. Twelfth Infantry, pneumonia; Richard John, F. Twenty-first Infantry, gastritis; Henry L. Noble, G. Fifty-third Iowa, alcoholism; September 8, William Kennedy, G. Ninth Infantry, fever, remittent malaria; September 9, Joshua W. Johnson, hospital corps.

Baltimore's Tribute to Dyer.

BALTIMORE, Sept. 11.—Preparations are complete for the reception of Captain N. Mayo Dyer, of the cruiser Baltimore, and the presentation of the handsome sword voted him by the city council of Baltimore, in recognition of his gallant services at Manila. The preliminaries to the celebration began to-day, with the arrival of the recipient, who was escorted from Wilmington, Del. by a committee headed by Colonel Willard Howard, of the Fourth regiment, M. N. G. A brief reception at the office of Mayor Maister, followed by a parade in the afternoon, in which all the militia of the state of Maryland, the Maryland naval reserve, the garri- sons at the various United States forts in this vicinity and numerous other organizations, including the G. A. R. of the state, will participate, to be followed by the presentation ceremony at River-view park, a public reception at River-view park and a banquet at the Remont Hotel at night. The latter promises to be a notable affair. Secretary of State Hay, Rear Admiral Schley, Adjutant General Corbin, Major General Miles and other distinguished persons being among those who will be present.

Feeling at Washington.

WASHINGTON, Sept. 11.—The Dreyfus verdict is attracting much attention throughout official circles, but naturally those in responsible positions, whose opinions would be valuable, are reluctant to express adverse comment because of the national aspect of the case. The feeling in general, however, in favor of Dreyfus, and a strong sentiment has developed against the injustice which, according to the prevailing belief, he has been subjected to. Some of the officials express fear that this sentiment will have a serious effect upon the Franco-American treaty when it comes before the senate, as that instrument has not proved very popular and the present feeling may turn the tide against it.

That Venezuelan Revolution.

HAVANA, Sept. 11.—The captains of British ships arriving here from Venezuela confirm the news that there has been a revolution there during the last three weeks. They say there are two parties against the government, and that the latter is extremely suspicious. Any one wishing to land must satisfy the officials that he is not connected with either of the revolutionary parties. The government, it is also said, is very unpopular.

A Generous Act.

QIBRALTAR, Sept. 11.—Before sailing from here yesterday afternoon for New York Admiral Dewey and the officers of the United States cruiser Olympia presented \$30 to Peppatt, the gunner of the British battleship Devastation, who, while the warship was firing the salute in honor of the arrival of the American admiral, September 4, had his hand shattered by the explosion of a charge while he was ramming home. Peppatt's arm has been amputated.

An Appeal for Dreyfus.

CHICAGO, Sept. 11.—James A. Garfield Lodge No. 27, Independent Order of the Western Star, has directed Secretary Herzfeld to send a call to all grand lodges of the order for an united appeal to President McKinley requesting him to use his influence in securing a pardon for Captain Dreyfus. The order has 4,000 members, and Secretary Herzfeld expects a unanimous vote in favor of the appeal.

Fatality at a Fire.

CHICAGO, Sept. 11.—Warren L. Aborn, well known in local racing circles, and at one time owner of a fast string of horses, was suffocated to death in a fire here, which destroyed a lively stable over which he lived. Five horses perished in the fire.

The Best Prescription for Chills

and Fever is a bottle of Grove's Tasteless Chilli Tonic. It is simply iron and quinine in a tasteless form. No cure, no pay. Price, 50c. tba&w

ESTERHAZY CHALLENGED

To Mortal Combat by Capt. Phelan, of Kansas City.

KANSAS CITY, Mo., Sept. 11.—Capt. Thomas Phelan, a broad swordsman and a crack pistol shot, has issued a challenge to Count Esterhazy to fight him a duel in defense of Captain Alfred Dreyfus. Captain Phelan has engaged in several personal encounters. He is said to be backed by several local Jews, who have guaranteed his passage to England to meet Esterhazy. He is a veteran of the civil war.

Captain Phelan's letter follows:

"KANSAS CITY, Mo., Sept. 11.

"To Count Esterhazy, Upper Gloucester Place, Dorset Square, London, England:

"Sir—Believing you to be the instigator and arch conspirator responsible for all the miseries and tribulations of Captain Dreyfus, again convicted as a traitor to his country, and because he (Dreyfus) is unable to follow you and demand satisfaction for the miseries you have heaped upon him, as an Irish-American, who does not belong to his race or creed, and believing that a man should not be punished on account of his religion, do I volunteer to take his place in the field of honor at any time or place you may designate, the place of meeting to be on neutral grounds. I am, respectfully,

THOMAS PHELAN,

Ex-Captain U. S. Volunteers.

NEW MINISTER

From Nicaragua Presents Credentials to the President.

WASHINGTON, Sept. 11.—Senator Luis P. Corea was presented to the President to-day as the newly accredited minister from Nicaragua. Acting Secretary of State Adee accompanied Mr. Corea to the white house, and made the presentation to the President. There was an exchange of felicitations between the President and the new minister, the hearty character of which had more than the usual significance, in view of the reported disaffection in South and Central American countries concerning the growth of the "Great Colossus of the North."

It was noted that Mr. Corea took occasion to suggest the development and extension of the relations between the United States and Nicaragua, particularly along commercial lines. While there was no direct reference to the Nicaragua canal, Mr. Corea's position as a representative of Nicaragua will give him much to do with any negotiations between the two countries on that subject, and moreover, it is understood that he has instructions from his government which will permit him to co-operate very freely with the United States authorities.

PLAIN, EASY READING.

It Will do you Good to Ponder Over it.

A Splendid Article Which all the People are Now Talking Much About.

What we say is plain, easy reading and will do you good. The people of West Virginia are saying a great deal about Morrow's Kid-ne-olds just now because Morrow's Kid-ne-olds have cured so many bad cases of backache, sleeplessness and nervousness in this city. Morrow's Kid-ne-olds is a scientific preparation prepared in yellow tablet form, and acts directly upon the kidneys and nerves. Do not connect Morrow's Kid-ne-olds with any kind of kidney pills; they are yellow tablets and put up in wooden boxes which contain enough for about two weeks' treatment, and sell at fifty cents a box at all drug stores.

We ask you to read what a gentleman has to say about the great merit of Morrow's Kid-ne-olds.

Mr. M. G. Graham, 1222 Fourth avenue, Huntington, says: "Some time ago I was feeling badly; I had pains across the small of my back and was generally run down. I had no appetite and could not sleep well at night and at times I would feel as though I would get up in the morning and go to bed. I would have headache frequently. Some of my friends had been greatly benefited by Morrow's Kid-ne-olds and Morrow's Liver-Lax, so I got some at the drug store and was cured in a week after I began taking them.

Morrow's Kid-ne-olds are not pills, but Yellow Tablets and are for sale at Chas. R. Goette's drug store. Morrow's Liver-Lax are small red granules and cure constipation and biliousness. Kid-ne-olds fifty cents each box. Liver-Lax twenty-five cents each box.

Description books mailed upon request by John Morrow & Co., Chemists, Springfield, Ohio.

Dewey's Brevity.

WASHINGTON, Sept. 11.—A cablegram was received at the navy department this morning from Admiral Dewey, announcing his departure on the Olympia yesterday. The dispatch is confined to a few words merely, "New York, 28th," indicating that Admiral Dewey expects to arrive in this country on the date named. The navy officers say that running at her economical speed the Olympia can scarcely consume fourteen days in making the passage from Gibraltar to New York, and they are speculating where the admiral intends to spend the other three days. It is believed to be possible that he will touch at the Azores or perhaps at Bermuda coming across.

The Delayed Lake Fleet.

SAULT STE. MARIE, Mich., Sept. 11. All precautions for avoiding accidents to the delayed lake fleet, which is crowding through St. Mary's river, are being taken. Captain Davis of the revenue cutter Morrill, has good control of the situation. Hay Lake, which is fourteen miles long, was dotted to-day with bunches of steamers and tows for nearly the entire length of its channel. The tows are gotten under way at safe distances from each other, and the long procession is necessarily a slow one until deep water is reached. By to-night nearly the entire fleet will be in the race for the lower lake ports, and evidences of the blockade will have vanished.

Wireless Telegraphy.

NEW YORK, Sept. 11.—A special to Herald from Washington says:

Rear Admiral Bradford, chief of the bureau of equipment, has been informed that Signor Marconi will come to Washington to discuss with him the proposed experiments with wireless telegraphy. The purpose of Signor Marconi is the result of a conference held with him by Lieutenant Commander J. C. Colwell stationed in London as naval attaché of this government. According to Rear Admiral Bradford's understanding, Signor Marconi will bring with him a complete wireless telegraph equipment. The inventor is expected to arrive in the course of a few weeks.

Arrival of Bradford will recommend that one of the vessels of the navy be set aside for the experimental work. It is proposed to place the receiver on shore and the warship will communicate with it from varying distances. By this means it is believed the system can be developed and the value of it can be definitely determined.

FEVER SITUATION

In Florida and Mississippi—Rigid Quarantine Established.

WASHINGTON, Sept. 11.—Dr. Altres, of the marine hospital service, reports a death from yellow fever at Port Tampa, Fla., this morning, and says the autopsy renders it certain that the original diagnosis of fever was correct. The source of infection was a tug boat, and it has been quarantined. Five other persons from tugs are under observation. A small quarantine station has been established. He adds that a house-to-house inspection has been ordered, but that no quarantine has been ordered against the town. He also says that there is no necessity for alarm, but that seventy-five people left there on the train last night. Dr. Trotter, who is also at Port Tampa, says there is a panicky feeling here.

Dr. Murray writes from Jackson City as follows: "Mississippi has a rigid quarantine for the present against New Orleans. Disinfection of mails is unnecessary. No one can be permitted to leave unless immune and with disinfectant baggage, except persons bound for non-infectious territory, there to receive. Wholesale freights and articles requiring disinfection. House-to-house inspection begins to-morrow. Hunter has taken all necessary steps to control. Vicksburg has quarantined Jackson. Sanders told me he found no yellow fever in Vicksburg."

Reports to the surgeon general are to the effect that new cases are still reported daily from Key West. There were two deaths there yesterday from fever.

JACKSON, Miss., Sept. 11.—The city council held a special meeting this morning and passed resolutions advising the people to keep quiet and not creating a panic over the outbreak of fever like the one of one year ago. The quarantine of the entire state against New Orleans went into effect to-day at noon. All trains from that city carry inspectors.

City Clerk Porter, the only patient, rallied somewhat during the night and is considered better this morning.

New York's Dewey Celebration.

NEW YORK, Sept. 11.—General Roe who has charge of the land parade of the Dewey celebration ceremonies, said to-day that at least 30,000 uniformed men will take part in the parade. General Roe has received word from Colonel James E. Barnett that the Tenth Pennsylvania regiment, which has just returned from the Philippines, will take part in the parade. The division of the G. A. R. will include twenty representatives from each of the fifty-six G. A. R. posts in this city. General O. O. Howard is expected to command the veterans, and General Roger A. Pryor will be in command of the division of Confederate veterans of New York. Major R. E. Davidson, of the Northwestern Military Academy, Chicago, has written to say that he will join the Dewey parade with his motor gun battery, and the Association of Congressional Medal of Honor Veterans of New York have also asked for a place in the line.

WELLSBURG.

Doings of People in the Brooke County Metropolis.

A number of Brooke county Republicans will attend the congressional convention at Martin's Ferry to-day. Among them are Henry Stengele, formerly of Martin's Ferry, who is a Weems supporter, and Am G. Neville, formerly of Belleaire, who is a Gill boomer. Circuit Clerk W. R. Glass, a native of Steubenville, will also be there to shout for the Jefferson county candidate.

West Virginia university will have a number of students from Wellsburg at the coming session. Among them are Misses Fannie Wange, Bertha Wange, Bertha Browning, Ella Miller, Messrs. Howard Duval, David Baird and John Connell.

The public schools opened yesterday, under charge of Superintendent Githens and an efficient corps of teachers. The first day's enrollment was about 750, out of a total enumeration of 1,200.

There was a Saturday morning visitor at the home of Mr. and Mrs. T. H. Ham-Chas. R. Goette's drug store. Morrow's Liver-Lax are small red granules and cure constipation and biliousness. Kid-ne-olds fifty cents each box. Liver-Lax twenty-five cents each box.

It is proposed to place the receiver on shore and the warship will communicate with it from varying distances. By this means it is believed the system can be developed and the value of it can be definitely determined.

Home Life of Women.

Several letters from women whose catarrhal troubles Pe-ru-na has cured.

PE-ru-na

is not laziness; it is a symptom. Something is wrong with the nerves. A cold in the head when the nerves are not normal soon develops into chronic catarrh. Miss Linnie Wiggins, Berlin Heights, O., tells her experience with catarrh in the following letter:

Pe-ru-na Medicine Co.

DEAR SIR:—I send my photograph and testimonial. I suffered with catarrh of the head, nose and throat for three years. I could get no relief until I began taking Pe-ru-na. I took three bottles; it has done wonders. Independent of curing my catarrh it has greatly improved my general health. I cannot describe the change. Any one suffering from catarrh and knowing that it can be cured, would be very unwise not to take Dr. Hartman's advice. Follow directions; Pe-ru-na does the rest.—Miss L. Wiggins, Berlin Heights, O.

Pe-ru-na is a scientific remedy for all phases of catarrh. It is particularly efficient for women's troubles because it acts through the nerves. Sarah Gallitz, of Luton, Ia., writes:

"I was suffering with the Change of Life; I had spells of flowing every two or three weeks which would leave me nearly dead. I had given up hope of being cured when I heard of Dr. Hartman's remedies and began to use them. I am entirely cured and give all the credit to Pe-ru-na and Man-a-lin."

The catarrhal nature of female troubles is beyond question, and the certainty of Pe-ru-na's action has been demonstrated in thousands of cases. Pe-ru-na drives out catarrh everywhere. Mrs. Caroline Duft, Evansport, O., writes:

Dr. S. B. Hartman, Columbus, O.

"I can testify to the merits of Pe-ru-na. I have taken considerable of it and one bottle of Man-a-lin, and they both are most excellent remedies. I am as well and hearty as I ever was in my life, and give the credit entirely to your medicines."

The Pe-ru-na Medicine Company, Columbus, O., will mail Dr. Hartman's books on catarrh free. Special book for women. All druggists sell Pe-ru-na.

"A HAND SAW IS A GOOD THING, BUT NOT TO SHAVE WITH."

SAPOLIO

IS THE PROPER THING FOR HOUSE-CLEANING.

BELLAIRE HAPPENINGS.

Matters of Interest in the Metropolis of Belmont County

Quite a number of congressional delegates from the southern and western part of this county came to Bellaire yesterday evening and remained here until this morning. It is expected that about one-third of the convention will go up from here this morning. A number of Bellaire folks went up to Martin's Ferry last night to see and hear what they could, but they came home to sleep.

Dr. G. A. Keepers, the Indian land agent located at Duluth, Minn., whose family has been with Mrs. Keepers' mother here for two months past, came in Sunday evening. After settling up some private business at Bellaire he will return to his family to Duluth. The doctor is the picture of health, life in the northwest agreeing with him.

John W. Sanders left yesterday for Oxford; William Kern for the Ohio State University, and Charles Thomas will leave to-day for the latter school. All are bright boys.

Three bums in the city bastille yesterday morning were run out of town on the appearance of Mayor Freeze and Marshal Johnston.

William Hoffman, who is working in Crafon, Pa., is spending a few days with his mother in the Fourth ward.

Frank Archer, who is superintending a street paving contract at Alliance is spending a few days with his family.

Miss Maude Johnston, of Belpro, who has been visiting friends and relatives here, left yesterday for her home.

Messrs. Will Kern and Charles Thomas will leave to-day for Columbus, where they will enter college.

Miss Lottie Kelly has returned home from a two months' visit with friends and relatives in Elvira.

Mr. and Mrs. George E. Work returned home yesterday from a few days' visit to Chicago.

Miss Emma George, of East Liverpool, is visiting friends and relatives in the Second ward.

Miss Mattie Heatherington leaves this morning for Chicago, to spend a month with relatives.

Work upon the foundations of the two new houses of Blum Bros. has been begun.

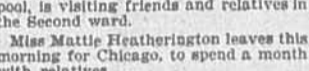

The city board of education and the city council will both meet this evening.

Howard Grafton has accepted a position in the laboratory at the steel works.

Major Rodefer will leave to-day for Hiram, where he will enter college.

Charles McGee is visiting friends in Pittsburgh.

WHEN IN DOUBT TRY

Sexine Pills

They are as much like COATED ELECTRICITY as asleep can make them. Each one produces as much nerve-building substance as is contained in the amount of food a man consumes in a week. This is why they have cured thousands of cases of nervous diseases, such as Debility, Dizziness, Insomnia, Vertigo, etc. They enable you to think clearly by developing brain matter; force healthy circulation, cure indigestion, and impart bounding vigor to the whole system. All weakness and tissue-detracting drains and losses permanently cured. Delay may mean Insanity, Consumption and Death.

Price, \$1 per box; six boxes (with iron-clad guarantee to cure or refund money). \$5. Book containing positive proof, free. Address Paul Medicine Co., Cleveland, O.

For Sale by Charles R. Goette, Druggist, Twelfth and Market Streets.
